Address of Applicant :Department of Computer Science & Engineering (Cyber Security), Noida Institute of Engineering & Technology, Greater Noida. Greater Noida -----

(57) Abstract :

A blockchain-enabled dynamic identity obfuscation mechanism (100) is disclosed, comprising decentralized identity tokens (102), a smart contract module (104), a zero-knowledge proof verifier (106), and dynamic obfuscated identity generator (108), all managed via a blockchain ledger (110). Each transaction generates a unique, verifiable, obfuscated identity while protecting user privacy.
