(57) Abstract :

PHARMACEUTICAL COMPOSITION FOR THE TREATMENT OF SCALP DISEASE The present invention relates to a pharmaceutical composition for the treatment of scalp disease. Most scalp conditions lead to hair loss or some type of skin rash. Malnutrition or infection can also cause scalp conditions. A proper diagnosis and management of these types of diseases is crucial. Corticosteroids are the preferred treatment for different types of scalp diseases like, alopecia, psoriasis. A composition of clobetasol propionate 0.02-0.05% and ketoconazole 1-2% is used. It helps to reduce the pain caused by the various disorders of scalp. A combination of clobetasol propionate and ketoconazole is effectively used in the management of scalp diseases.
